

BEFORE

AFTER

"Appliance retailer saves 51% in energy consumption by retrofitting their distribution center with FSC LED High Bays."

LEHB LED High Bay Features:

- Projected L70: 180,000 hours
- Sensors can be integrated for additional energy savings
- Wireguard, emergency battery back-up and step dimming optional
- UL Listed and DLC Premium Listed
- 50°C Ambient Temperature Rating
- Low maintenance & energy efficient

The Situation:

Major appliance retailer, looking to invest in new lighting to replace existing commonly used fluorescents at their 1.2 million sq. ft. distribution center in Dinuba, CA, opts to use energy efficient LED lighting to create a more even distribution of light and provide better clarity when reading labels on boxes.

The Solution:

FSC Lighting's LEHB series was chosen to replace, 4, 6, & 8 lamp T5HO fluorescent high bays throughout the warehouse, reducing operating costs while enhancing the visual appeal of the vertical racking. By replacing fluorescent high bays with FSC's LEHB, this major retailer will use 1,286,064 fewer kilowatt hours (kWh) per year, an annual savings of approximately \$186,479. Sensors were installed to improve efficiency and eliminate redundancy of electricity. As an added benefit the LEHB LED fixture qualified for a utility program and was granted \$240 rebate per fixture. Annual energy cost savings coupled with the substantial rebate, guarantees a simple pay-back 1.1 years.

	EXISTING	REPLACEMENT
TECHNOLOGY	Fluorescent	LED Fixtures
SYSTEM	T5HO High Bay	LEHB
TOTAL SYSTEM ENERGY USAGE	216/324/432	106/158/214
CONTROLS	None	Occupancy Sensor
TOTAL ANNUAL kwh	2,527,140	1,286,064

FSC Lighting delivers RESULTS:

ANNUAL ENERGY COST SAVINGS:

\$186,479

ANNUAL ENERGY SAVINGS:

1,286,064 kWh
